Hardware and software requirements for the Splunk Add-on for Infoblox

Infoblox setup requirements

You must have access to the Grid Manager web interface so that you can configure your NIOS appliances and management stations to send data to the Splunk platform over syslog.

Splunk platform requirements

Because this add-on runs on the Splunk platform, all of the system requirements apply for the Splunk software that you use to run this add-on.

- For Splunk Enterprise system requirements: see "System Requirements" in the Splunk Enterprise Installation Manual.
- For Splunk Light system requirements: see "System Requirements" in the Splunk Light Installation Manual.
- If you are managing on-premises forwarders to get data into Splunk Cloud, see "System Requirements" in the Splunk Enterprise Installation Manual, which includes information about forwarders.
